

The DC6000 can also be fitted with an airshift clutch option which allows pneumatic control of the freespool from the side of the vehicle.

## DC 6000 KIT

T-MAX Heavy Duty 24v Electric Winch, 3.7m wanderlead, roller guides, tension roller, load limiter and 12mm diameter x 30m high tensile galvanised Python Compac wire rope with grade 80 safety latch hook.

**Options:** Mounting plate. radio control (see below), circuit Isolator switch, heavy duty extension kit for wanderlead, airshift freespool clutch, emergency stop.

**Radio control option:** The DC6000 is prewired to accept either Lodar or FM•Connect wireless controls that can be simply plugged directly into the electrical pack. This provides significant time saving to install a radio control facility in the system.

## ADDITIONAL EQUIPMENT & SERVICES

- Electric isolator switch
- Auxiliary industrial extension plug and socket kit for wanderlead connection
- Fuse and fuse holder
- Snatch block
- Radio Control Unit
- Full or partial fitting can be provided, including load testing and certification

## T-MAX DC6000

**Extra Heavy Duty  
24v DC Electric Winch  
6340kg (62kN) Line Pull  
Long Drum - Large Capacity**

**Plant Moving and  
Commercial Recovery Vehicles**

*Long drum planetary winch specifically developed for professional use.*

*The large electric motor ensures good service life.*

*Compliant with EN14492-1 Power Driven Winches.*

## FEATURES INCLUDE

- **Fully EN14492-1 compliant**
- **Electronic load limiter**  
Supplied as standard
- **4 stage planetary gearing**  
Providing high mechanical efficiency
- **Powerful series wound, 24v high torque motor**
- **Freespool clutch lever** Easy to use T-Bar handle.  
Can also be adapted for freespool airshift clutch, providing pneumatic control of the freespool from the side of the vehicle.
- **Power in / power out**  
Fine control ensures load will not overrun
- **Automatic failsafe brake**
- **4 way roller guides**
- **12mm diameter Python Compac wire rope**  
Spin resistant with grade 80 safety hook. 30m length.
- **Secure wire rope anchorage**  
Simple thread and wrap system for safe installation of wire rope.
- **Tension roller**  
Spring loaded to aid wire rope wrapping.
- **After sales service**  
Technical advice given on winch fitting and component replacement, plus efficient overnight parts dispatch and fast repairs.

### KEY DIMENSIONS

Drum: Length 267mm  
 Diameter 119mm  
 Flange Diameter 240mm  
 Fixing Centres: 304.8mm on length  
 254mm on depth

### PERFORMANCE

PERFORMANCE FIRST LAYER OF CABLE		
LINE PULL	LINE SPEED (approx)	AMP DRAW (approx)
kgf	m/min	24v
0	8.2	40
1000	4.7	72
2000	4	98
3000	3.2	122
4000	2.8	146
5000	2.5	170
6340	1.5	210

### RATED LINE PULL

		LAYER		
		1	2	3
Maximum Rated Line Pull by Layer*	kgf	6340	5300	4390
	kN	62	52	43
Cable Drum Capacity Cumulative by Layer (12mm Ø wire rope)	m	8	11	30

\*By incorporating a snatch block in the line it is possible to double these capacities.

All figures are based on battery maintaining normal voltage.

## SPECIFICATIONS

- Rated Line Pull:** 6340kg (62kN).
- Motor:** Powerful 24v 7.0 HP series wound motor. Ensures constant high power and torque. Roller bearings provide higher efficiency. Casing sealed against water ingress with IP 65 rating.
- Gear Ratio:** 329:1. 4 stage planetary machined gears to transfer high power and torque to the winch drum.
- Brake:** Heavy duty automatic in-the-drum brake.
- Drum Size:** 119mm diameter x 264mm length. Flange diameter 240mm.
- Wire Rope:** 30 metre length 12mm dia. Python Compac 35 (35 x 7) Galv. RHLL 2160N tensile compacted spin resistant wire rope with thimble eye one end, other end fused and tapered. MBL 138.27kN (14.10t). Working Load Limit 6.34 tonnes @ 2:1 fos. Rope to drum ratio 11:1.
- Freespool Clutch:** Spring loaded sliding ring gear engaged and disengaged by rotating lever on gear housing. These winches can be easily adapted to airshift control of the freespool from the side of the vehicle.
- Load Limiting Device:** Electronic limiting device to provide 2:1 working load limit (WLL), for compliance with EN14492-1.
- Wire Rope Tensioner:** Spring loaded roller tensioner to assist wrapping.
- Solenoids:** Integrated Solenoid Module (ISM) manufactured for military and industrial use. Prewired to accept optional wireless control saving significant installation time.
- Wanderlead Control:** 3.7m control lead supplied as standard. Other wanderleads / extensions and emergency stop button options available on request.
- Roller Guides:** 4 way supplied as standard.
- Mounting Plate:** Optional. Ensures securing holes are all in alignment and not oversized.
- Complete Kit Weight:** 91kg.

## WARRANTY

Each new winch is guaranteed against defects in workmanship and material defects for a period of twelve months from date of purchase. Wire ropes are not included under warranty. Not to be used for the movement of personnel. Five wraps of wire rope must be maintained on the drum at all times. Data shown is approximate and intended as a guide only.
