WINCH•ASSIST 8 NEW ADVANCED TECHNOLOGY CENTRALLY MOUNTED WINCH for Wheelchair & Stretcher Vehicles

Safe, strong, reliable and smooth running mobility systems to help the carer and ensure compliance with UK and EU manual handling regulations.

Centrally mounted winches with webbing strap and yoke to connect to either stretchers or wheelchairs.

Carers are able to load and unload wheelchairs or stretchers and their occupants with minimum effort.

Systems include multiturn sensors, remote controllers, dynamic braking and soft start to ensure smooth running.

There are also optional buffer stops and reset switches or fuses supplied on request.

WINCH•ASSIST 8 FEATURES

- **Multiturn Sensor**
To turn the winch off, if the strap is powered in or out too far.
- **Remote Controllers (2 supplied)**
Key fobs to make control as easy as possible.
- **Dynamic braking**
To ensure that the winch will not back drive.
- **Soft start**
Ensures smooth operation of the winch.

TECHNICAL OVERVIEW

- **Amperage draw:** 10amps
- **Working Load Limit:** (Maximum pulling force on upper layer of strap): 133kg
- **Line Pull** (Bare drum, 30mm diameter): 350kg
- **Typical Rolling Load Capacities on Gradients:**

	5°	10°	15°
	700Kg	370kg	310Kg
- **After sales service**
Technical advice given on winch fitting and component replacement, plus efficient overnight parts despatch and fast repairs.
